## CUSTOMER TESTIMONY

"As I oversee Talent Acquisition, Labor Management and Employee Engagement for over 30 buildings, across multiple states, the cost and quality of talent is top of mind for me. Gale's technology and recruiting services have enabled me to drive cost, centralization and offset the risks of overtime and agency fees exponentially. They've helped me service patients in metropolitan areas and also in my more rural settings. The economies of scale have helped my scheduling team cover more facilities with less scheduling staff, helping me exceed my numbers. I've always been skeptical of agencies, though Gale has exceeded my expectations."

– Matt Marconi, Director of Labor Management,  
Greystone Healthcare Management
